AMBIENTAIR

OUR PHILOSOPHY

Ambientair started off with the goal of becoming a leading company in sale, manufacture and distribution of the best aromatic products for the home, garden and office, both in Spain and abroad.

Since 1997, our history is marked by dynamism, flexibility and constant adaptation to the market. We have been able to adapt to each customer and its style without losing our essence. We have always been faithful to our quality standards and we know how to identify the consumer needs to achieve our goals we are in a constant evolving process. We seek innovation in our field. We examine the market and we work hard to offer our customers products that really meet their expectations.

Our brand stands out both in Spain and abroad: we supply to many countries generating a large volume of exportations. This has been possible thanks to strategic alliances, the creation of subsidiaries and the introduction of our production facilities.

After surpassing our goals year after year, we are the company with Spanish stamp, with a bigger global outreach in its area. We are now undergoing a process of international growth, and after almost 20 years our goal is to improve ourselves each day and continue growing, as we are doing already, in more than 40 countries all around the world.

OUR KNOW-HOW

Until becoming who we are now, in Ambientair we have worked for and because our project, we believe in what we do, and we get involved in each product in order to achieve the best results. Our factory is located in Segovia, Spain, from where we ship our products to more than 40 countries, worldwide.

Our candles, reed diffusers and other products are tested and subjected to rigorous analysis to ensure that they have Ambientair's essence.

Thanks to our great team, the basic components and elements are transformed into excellent products that travel to stores and homes all over the world.

Our formulas do not contain alcohol which contributes to a long-lasting durability. Our essences are not altered and the fragrances evaporate more slowly. This savoir faire, combined with the technologies and our constant innovation, paves the way and opens the road to new frontiers.

AMBIENTAIR

COLLECTIONS

Vision, persistence and initiative are the premises that have positioned us as referents in the home-perfume sector. The confidence of our past, the modernity of our present and the unshakeable vision of our path to the future have forged each of our products.

Currently, a long history as manufacturers guarantees us. That's how we have been able to develop internally and continue to grow. As a result of our growth, Ambientair Collections, the most special range of our brand, was created. A range that encompasses The Olphactory, Le Jardin de Julie, Lacrosse and Mise-en-Scène.

These five collections maintain their distinguishing personality; they are more meticulous in the details, since they are less conventional. They have a refined, caring character, and each follows its own style. Ambientair brings up its more exclusive side, where the quality that represents us is instantly recognizable.

AMBIENT AIR
COLLECTIONS

THE OLPHACTORY

The Olphactory is the embodiment of a relaxed lifestyle. Its simple and beautiful design reminds us how important disconnection and comfort are. A collection of fragrances ready to create a well-being environment that allows us to enjoy even more our home privacy. This collections is ready to follow a relaxed philosophy, created for mind-wandering thoughts and pause moments. These candles, perfumes and diffusers will help you enhance your positive side, and at the same time they will give the atmosphere a nice and serenity touch.

While you are enjoying a cup of coffee, feel how your home is being lifted by The Olphactory and your thoughts are renewed. Combine the products in different ways and look for the perfect balance for every moment.

Reed diffusers will give a subtle and continuous scent for weeks with no flames in the mix, so they are secure and practical. They perfume the rooms for weeks without worrying, so we can fully enjoy our moments for pause: eight fragrances without alcohol and with long-lasting formulas are diffused through natural rattan reeds.

These scented sticks contain the essence of The Olphactory: their fragrances make us value each stay, rediscovering their intimacy and comfort. Open the door of your home to this cosy minimalist trend.

Le jardin de Julie

- B O U Q U E T S P A R F U M É S -

Le jardin de Julie is a new line of fragrances for the home, in which the French style predominates. Its exquisite aesthetic and its floral aromas are the perfect elements for any kind of decoration.

When Julie receives a visit, she gathers flowers from her garden creating an improvised bouquet that she gives away wrapped in craft paper, as florists in the streets of France.

The aromas of her flowers are the perfect present to make a memory of that visit to her French garden that will stay with us forever. Each “bouquet diffuseur” of this collection is inspired by a bouquet of flowers: the bottle is the vase and the reeds are in charge of spreading the aroma through the room. The vegetable wax candles are kept in beautiful glass pots, a “pot parfumé” that Julie gives to the visitors of her garden.

The case's flowers are a reminiscence of the illustrations of ancient botanical books, these bring a Provençal look in every aroma. You will find six flowers in Le jardin de Julie, and there are three sizes available in the highest quality formulas, corresponding to the values of Ambientair Collections.

BOUQUET DIFFUSEUR (330 ML. / 11.16 FL. OZ.) LE JARDIN DE JULIE

The “bouquets diffuseurs” of Le jardin de Julie are perfumed reed diffusers whose formulas do not contain alcohol, and they provide a long duration aroma. This large size lasts more than 6 months.

Our formulas, made with premium fragrances, guarantee that our aromas evaporate slowly and constantly throughout the day.

The vegetable reeds are made of natural rattan, the properties of this plant make it an indispensable element for these diffusers: the fragrance spreads out constantly and progressive through all the rooms. Thanks to its porous structure, the reed is permeated little by little without reaching saturation.

COLLECTIONS

LACROSSE

Lacrosse has been created with Ambientair's know-how. Its style is timeless. A striking and recognizable design paired with an interesting chromatic effect, directly inspired by nature hues. This makes it the most extraordinary collection of the brand, where we instantly recognize Ambientair's DNA.

Just like in architecture, we find a balanced harmony between functionality and art in its products. Lacrosse perfectly fits in your home décor and fills the atmosphere with an exquisite fragrance.

Diving inside Lacrosse's universe is like traveling for inspiration. The adventurous spirit blends into the creative soul to create each of its emblematic home fragrances, inspired by natural elements and capable of making your heart beats. An unknown collection that distills authenticity and whose aromatic notes emerge the experiences lived in the quest of each essence, its origins and its influences.

LACROSSE

If elegance gave off a scent that would be any of Lacrosse's fragrances: these reed diffusers represent the perfect balance between modernity and classicism. The collection puts together fragrances where different aromatic melodies fill in the spaces in a powerful and captivating way.

The bottle creates a unique set of colors according to the scent and its color. Each bottle is a pure figure, to which the wood cap is added to stylize and give nobleness. The rattan sticks release the perfume gradually: the porosity of these reeds, allows the fragrance to rise up for each of them and the diffusion of the perfume is natural and continuous.

AROMATIC NATURAL CANDLE (310 G. / 10.93 OZ.)
LACROSSE

NEW

The crystal glass, the vegetable wax, the wooden cap and the wick: these are the pieces that make the container and the olfactory content of Lacrosse's aromatic candles, to which the essential perfume joins, the main character in this exceptional set.

The merge of these elements determines the final value: they are all necessary and play an essential role in the olfactory experience. Its waxes and scents are based on natural, non-harmful ingredients, which cause the stimulation of more than one sense. Lacrosse offers fragrances that evoke memories and experiences, as well as creating new ones.

WATER SOLUBLE OIL FRAGRANCE LACROSSE

Each fragrance becomes the best version of itself, making us remember nice moments and creating new ones that will become part of our olfactory memory.

These oils are suitable to be used in oil burners (with candle), and also in ultrasonic scented diffusers, because its formula is water-soluble. Dare to create spaces that transmit personality and elegance.

MISE-EN-SCÈNE

FRAGRANCES REGISTRY

Mise-en-Scène is a French term that refers to the global design of a scenic or cinematographic production. We chose this expression to name our collection because each of our fragrances forms a “mise-en-scène” in our home: the olfactory notes turn every room into a scene where a memory, an anecdote or a fictional event is represented.

Every audiovisual and dramatic work needs an atmosphere to be credible. Each object must be dressed and ornamented. This way, and in combination with the characters, they create a story that transmits a unique emotion beyond the framing.

Enjoy and discover all the different scenes that our fragrances will create for you. You will travel to different cities, attend to parties and live romantic, mysterious or funny situations, thanks to the sense of smell and our unique products. Our perfumes will tell you where and when to travel by shaping a magnificent scenic production in your home.

quedado con nosotros.
El señor Edgar me incitaba a que recogiera información; me impuso que pensaba mucho en él y que habría estado dispuesto a correr algún riesgo para verlo; y me dijo una vez que preguntara al uno de los muchachos iba alguna vez al pueblo. Ella me dijo que solo había ido una vez, a caballo, acompañando a su padre, y que las dos veces se había armado de llaves se marchó dos días siguientes diciendo que estaba apurada. Aquella no recuerdo mal, y su suceso fue otra a la que yo no comencé a que yo viviendo allí.

Cumbres borrascosas, cuando iba a Gimmerton a hacer cosas y con mala salud y que era un huésped pesado. Me dijo que pensaba señor Heathcliff lo disgustaba todavía más, aunque eso se entendía.

SCENTED CANDLES (300 G. / 10.58 OZ.)
MISE-EN-SCÈNE

NEW

This collection offers you a multi-sensory experience based on its elegant design, premium materials, unforgettable fragrances and warm flames. These candles are made of a blend of vegetable waxes (soy, coconut, sustainable palm...) and the unique perfumes that were created especially for this cinematographic collection. You will also find a little box with twelve matches inside the packaging of the candle and a candle dust cover with a singular quote. Therefore, you will find in this collection everything you need to create that intimate and special environment you have always wanted. Made in Spain meeting the highest standards.

OUR QUALITY COMMITMENT

In Ambientair we make sure all our suppliers are approved and have quality certificates, just as we are certified to ISO 9001: 2015.

We also are part of Ecoembes, an independent waste management organization that promotes environment protection through recycling and eco-design. We are responsible for the right management of household packaging we put on the market by being affiliated to its Integrated Management System (IMS) or to a Deposit Return System.

Our waste management is designed according to the Environmental Management and Protection (EMP) and all our plastic, paper and glass is recycled.

The wood used in our lids comes from sustainable forests and therefore follow the Programme for the Endorsement of Forest Certification (PEFC) which manage world's forests in a sustainable way.

None of our fragrances have been tested on animals and all of them meet the criteria of the International Fragrance Association (IFRA).

Moreover, every label complies the CLP Regulation that guarantees clear communication by classifying chemical substances to consumers.

Our products meet the standards of the European Union Regulation (REACH) which aims to improve the protection of human health and the environment through the better and earlier identification of the intrinsic properties of chemical substance.

**Brand with High
International Potential**
